

## NICHOLE VAN PROOFING PRESET LIST

This document lists all the presets included in the Proofing Preset set for Adobe Lightroom 1-2 and Adobe Photoshop CS2-CS4. Please note that these presets are meant to be added together to create the overall look of your photo. If you have any questions about how to do this, please watch the tutorial video included with the Proofing Preset download, as it shows you how to proof using these presets. Also, please note that the “darker sky” preset will only work in Lightroom 2.
